

2ND PRESS RELEASE

September 2023

C.H.A.N.G.E.R.S.-2.0 IS RUNNING FAST!

C.H.A.N.G.E.R.S.-2.0 is an **Erasmus+ project** that aims to develop targeted training materials for rural seniors to improve their access to adult learning opportunities on specific topics which can help them **fight against climate change and energy poverty** and contribute to **sustainability**.

On 6 and 7 September, Falco&Associati had the pleasure of hosting the C.H.A.N.G.E.R.S.-2.0 project consortium in **Milan** for the first **face-to-face workshop** after the one held online in the spring.

These were **two very interesting days** both from a business point of view and in terms of sharing experience among the partners.

The work opened on Wednesday, **6 September** with the discussion and review of the outputs of the first period. They discussed the **Methodology development on Knowledge transfer to be developed** and how to make it more effective for the target group. Many interesting points of reflection and ideas emerged from the discussion to make the document more effective and in line with the end user's requirements. Subsequently, the consortium discussed the **transgenerational activities to be included within the methodology**, again trying to remain as faithful as possible to the demands and expectations of the target group.

The day of **Thursday 7 September** featured the outputs that will be developed in the near future and that will be supported by the Methodology on knowledge transfer. The consortium then discussed the **Learning Material and Toolkit development**; the discussion was very intense and fruitful and brought new stimuli for the drafting of the documents, as well as finally clarifying what the consortium's and the end user's expectations for these outputs were.

This workshop was profitable and very useful for all participants and contributed to a better continuation of work on the C.H.A.N.G.E.R.S.-2.0 project. There was no lack of relaxation and sharing of good times, which contributed to making this workshop an enjoyable experience.
