Neither the European Union nor EACEA can be held responsible for them. "Change Household Attitudes for a Non-wasteful, Green environment and Energy-consciousness addressing Rural Seniors" Project number: 2022-1-HU01-KA220-ADU-000089052

**Co-funded by
the European Union**

KNOW THE PROJECT

C.H.A.N.G.E.R.S.-2.0 project aims to develop targeted **training materials for rural seniors to improve their access to adult learning opportunities** on specific topics which can help them fight against climate change and energy poverty, and contribute to sustainability such as energy efficiency, sustainability households and adaptation to climate change.

Results

The main results are **a set of training materials tailored for seniors** and translated to the languages of the project partners. The project creates **related methodology and toolkits** for the successful implementation of the knowledge transfer with **two different approaches addressing the special needs of this social group**: one relies on training opportunities with the advantage of local proximity, the other provides a transgenerational approach.

The project leads 4 Work Packages:

WP1

Project Management

WP2

Sharing and promoting activities

WP3

Methodology development on
knowledge transfer

WP4

Learning material and toolkit development

LIST OF WORK PACKAGES

C.H.A.N.G.E.R.S.-2.0 addresses **senior citizens (65+ seniors) in rural areas** and in general, since they often fall out from the scope of the available training opportunities by living in the countryside or having lower IT skills.

The project also aims at:

» **Further agents** who can directly reach out to seniors, such as NGOs and other organizations working with senior citizens especially in rural areas, staff members of local and regional municipalities, and adult educators in general.

» **Younger generations** in terms of transgenerational learning.
